Kitchen Craft Cabinetry [12 reviews](#) - Winnipeg, MB

MasterBrand Cabinets (known in Winnipeg as **Kitchen Craft Cabinetry**) , is a dynamic supplier of high quality kitchen cabinetry and countertops with facilities and sales throughout North America. As a growing company we have opportunities in our Manufacturing plant (located on Springfield Road in Winnipeg) for **Assemblers, Material Handlers, Machine Operators, and General Helpers** .

- **Assemblers** are responsible for the assembly of cabinets, ensuring the assembly meets quality standards. Applicants must have the ability to read and interpret various gauges and measuring devices, pay attention to detail and have previous experience utilizing various hand tools; ability and willingness to work in a fast-paced and physical environment is mandatory.
- **Shipping Material Handlers:** Entry level and senior positions are available.
 - **Material Handlers - Level 1** will manually pull completed cabinets off conveyor, stack on pallets, and move to correct location for shipping. Previous experience with powered mobile equipment is an asset.
 - **Material Handlers - Level 2** will pre-plan the loading of trailers, scan and load product based on the delivery schedule. Ability to read and interpret shipping paperwork; computer literacy; attention to detail; ability and willingness to work in a fast-paced, physical environment is necessary. Experience with Power Mobile Equipment is mandatory and previous shipping experience is required.
- **Machine Operators** - entry, mid, and senior level positions are open. Previous experience in operating entry level to complex machinery in the woodworking industry is ideal. Strong working mechanical knowledge of machines and tools including their designs, uses, repair, and maintenance is required. Must have the ability to read and understand schematics and work instructions and troubleshoot machine operations and willingness to work in a fast-paced and physical environment is necessary. CNC experience is considered an asset.
- **General Helpers** are responsible for assisting Production in loading and off-loading materials from the lines and machines, assisting Operators and Assemblers, and assisting with general clean up. Ability and willingness to work in a fast-paced, physical environment is mandatory.

POSITIONS ARE AVAILABLE ON ALL SHIFTS – DAYS, EVENING, MIDNIGHTS

Successful applicants must be eligible to work in Canada, speak, read, write English, have excellent math skills, a strong work ethic, ability to work as a functioning member of a team, work in a safe and responsible manner, and display a commitment to quality and safety. In addition, all positions require the successful candidate to have the physical ability to lift, bend, push, pull, and move material up to 50 pounds, as well as stand for prolonged period of time. Reliable transportation is required (Facility **is not on a bus route**).

All applicants must pass a pre-employment skills assessment for English comprehension, problem-solving and mathematical abilities prior to being considered for an interview.
