

Composite Operator- Mold Maintenance

Carfair Composites is a leader in fibre-reinforced plastic (FRP) design and composites technology and has dedicated team members located in facilities between Winnipeg, MB (Canada), St. Cloud, MN (USA), and Anniston, AL (USA), Wausaukee, WI (USA) and Gillett, WI (USA). Further information is available at www.carfaircomposites.com.

POSITION SUMMARY:

The Manufacturing Engineering Technician supports all Manufacturing Engineering activities related to the requirements of the assigned Carfair site. They support Manufacturing Engineering projects to improve production indices, support HSE initiatives, quality improvement, and Lean initiatives. Provide hands on technical support to production.

WHAT YOU WILL DO:

- Ability to work with catalysts, resins, cloths, and mats.
- Ability to apply layers of fiberglass mat including chop strand on mold surfaces and injecting resin into the cavity of the mold using a resin system. May also apply releasing agents to mold surfaces for easier demolding processes.
- Ability to setup injection equipment with required settings and operates same equipment to inject parts.
- Ability to cut required fiberglass materials to proper size and shape using all dies, templates, and cutout patterns.
- Ability to use and maintain injection equipment including mixing systems for resins.
- Ability to use hand tools such as hand shears, or trimming knives.
- Ability to work well within a team environment and train others on established procedures.
- Ability to follow both verbal and written instructions.
- Ability to lift a minimum of 20 lbs on a continual basis.
- Complies with all safety and housekeeping rules and regulations.
- Maintains a clean and organized area.
- Must support and adhere to all Lean and 5s initiatives.
- Documents all non-conformities on a Dimensional Inspection Report (DIR).
- Perform other related duties as required or assigned.

WHAT YOU NEED TO BE SUCCESSFUL:

- Completion of grade 12.
- Good attendance, safety and work record.
- Able to work with fibreglass, resin, dust, glue, paint and chemicals.
- Able to do repetitive work with various tools.
- Able to perform tasks at heights, standing, and sitting. Able to work above shoulder height and bend at the waist.
- Able to lift up to 20 lbs on a routine basis.

WHY JOIN OUR TEAM:

- We offer competitive wages and a benefits package that includes medical, dental, vision, a matching GRRSP plan, life insurance, and disability programs.
- The ability to advance your career with a growing company.
- Employee development through a variety of training initiatives.
- We enjoy numerous employee events throughout the year.

OUR WHY:

We exist to move people. Our mission is to design and deliver exceptional transportation solutions that are safe, accessible, efficient and reliable.

NFI Group is a leading independent global bus manufacturer providing a comprehensive suite of mass transportation solutions.
