

Manufacturing Engineering Technician

Carfair Composites is a leader in fibre-reinforced plastic (FRP) design and composites technology and has dedicated team members located in facilities between Winnipeg, MB (Canada), St. Cloud, MN (USA), and Anniston, AL (USA), Wausaukee, WI (USA) and Gillett, WI (USA). Further information is available at www.carfaircomposites.com.

POSITION SUMMARY:

The Manufacturing Engineering Technician supports all Manufacturing Engineering activities related to the requirements of the assigned Carfair site. They support Manufacturing Engineering projects to improve production indices, support HSE initiatives, quality improvement, and Lean initiatives. Provide hands on technical support to production.

WHAT YOU WILL DO:

- Provide technical support to Production by troubleshooting processes and equipment issues.
- Support projects and activities to improve production indices, HSE initiatives, product quality and service.
- Work with Lean resources, maintenance, production and quality to achieve targets.
- Work with suppliers on equipment and quality issues.
- Work effectively as a team member to ensure goals are achieved and any remedial action is actively pursued.
- Participate in lean manufacturing initiatives as they relate to site as assigned (5S, value stream mapping, set-up reduction, etc.).
- Promote an environment of continuous improvement and teamwork.
- Remain current with relevant industry and production technologies in order to advance the manufacturing processes within the facility.
- Liaison between Engineering and production shop floor.
- Communicate customer change notices to the shop floor and provide feedback on discrepancies.

WHAT YOU NEED TO BE SUCCESSFUL:

- Prior experience in composites, fibreglass or similar industry would be an asset.
- 3D Modeling experience would be an asset.
- Able to perform measurements utilizing hand measuring tools (calipers, micrometers).
- Strong problem-solving skills, including troubleshooting and resolving issues.
- Strong interpersonal and communication skills, both written and verbal.
- Proficient in Microsoft (Word, Excel, Power Point, Teams, Outlook).
- Able to work in a fast-paced, multi-task production environment.
- Solid organizational and time management skills.
- Able to lift up to 50 lbs.
- Able to grasp, grip, reach, pull, push, bend, squat, kneel and stand for prolonged periods of time.

WHY JOIN OUR TEAM:

- We offer competitive wages and a benefits package that includes medical, dental, vision, a matching GRRSP plan, life insurance, and disability programs.
- The ability to advance your career with a growing company.
- Employee development through a variety of training initiatives.
- We enjoy numerous employee events throughout the year.

OUR WHY:

We exist to move people. Our mission is to design and deliver exceptional transportation solutions that are safe, accessible, efficient and reliable.

NFI Group is a leading independent global bus manufacturer providing a comprehensive suite of mass transportation solutions.
