Canada

## Job Description

CNC Machine Operator - Job description

Want to expand your skills as a CNC Operator? Cassidy Manufacturing is GROWING!!!

You have the opportunity to operate 1 or all of our 20 vertical /milling machines, and learn the 100's of active parts we produce.

We are looking to add full time, Experienced or Recent Student Graduates as CNC Machine Operators on our days, evening or overnight - non-rotating shifts!

\*\*\*Please note we are not located on a local transit route, access to reliable transportation is required.\*\*\*

CNC Operator:

Primary responsibility is to operate vertical and horizontal milling and turning centers

Ability to read blueprints

Complete regular quality checks

Learn to operate all machines as you learn and grow as an operator

Once you've mastered operating all machines, the opportunity to move into a set-up operator role awaits.

Skills Required:

Basic computer / tablet data entry for work / quality control

Blueprint reading a definite asset

Ability to use and read precision measuring instruments (micrometers, calipers, gauges, etc.)

Observe machine settings and detect any problems in an operation

Adjust machines to maintain tolerance of parts

Complete basic editing of a program

Make tool changes when required

De-burr and/or assemble parts when required

Qualifications

Experience working as a CNC operator in a metal manufacturing environment

Experience operating CNC mills or lathes in a metal manufacturing environment

Experience working with micrometers, calipers and gauges.

Ability to read blueprints and drawings

Good proficiency with written and spoken English (required for reading, interpreting, and giving/following English work instructions/documents)

High-school/secondary school education or equivalent is an asset

Reliable and daily attendance

Cassidy Offers:

Full-time, permanent roles

NO ROTATING shifts

Multiple shifts days, evenings and overnights

Evening shift premiums of \$1.00 /hr - Sunday -Thursday 3pm-11:30pm  
Overnight shift premiums of \$2.00/hr - Sunday - Thursday 11pm-7:30am  
Competitive wages & benefit packages including RRSP / company matching program  
3 weeks paid vacation  
Annual work boot allowance  
Company apparel  
Safe working environment

We do thank all interested candidates in advance who wish to join the Cassidy Team however only those under consideration will be contacted. Preference will be given to those with experience in a production environment who have operated other types of production equipment requiring blueprint reading and use of precision measuring tools.

All employees who are selected for a Machine Operator interview will be subject to completing a measuring and proficiency test prior to hire.

Candidates with great attendance, attitude and aptitude, we also do have an awesome training program so you can grow your career as a machine operator too - if no proven machine experience. Join us as a team member as Production Support to one of our CNC machine operators.

If this sounds like an opportunity you can't pass up, WE WANT TO HEAR FROM YOU! Please submit a cover letter and resume outlining your experience and include the shift you would be most interested in.
