

Skilled Trades

Con-Restor Technologies

Job Description

Con-Restor Technologies is a trusted provider of commercial concrete restoration and structural repair with expertise in balcony and parkade repair and restoration. In addition, we have expertise in concrete slab foundation; parking deck coatings; control/expansion joint caulking; water proofing coatings and removal; masonry, railings, pressure grouting, drywall, taping and sanding. In keeping with our growth strategy, we are seeking skilled trades to join our Winnipeg team including carpentry, masonry, general construction, and drywall in various levels from labourer to lead hand.

Employment requirements

Ideal candidates will have construction training and or experience preferably in concrete and structural repair. A valid driver's license is an asset. We are seeking individuals who take pride in their work, are reliable dependable and safety conscious combined with an ability to foster positive working relationships with all levels of the company.
