

As a service driven operation, we offer cross-docking, warehousing, distribution, pick and pack and transportation services. Each customer's individual requirements are considered in detail and a tailor-made solution is created from our range of services, to create a long-term working partnership. Any changes in customer requirements are implemented quickly in order to improve, adapt and extend our services and give our customers total flexibility to provide them with the solutions required both now and in the future.

Crossdock is currently hiring for the Warehouse Associate position.

What You'll Do:

- Ensure the accurate and seamless processing of incoming and outgoing shipments
- Load and unload shipments regularly, with the capability of repetitive heavy lifting, and use of necessary equipment
- Inspection of incoming and outgoing shipments to verify contents and quality
