# Maintenance Worker

## What is the job?

Keeping our hotel running smoothly is vital to our guest's experience. In the position you will be supporting the Chief Engineer in the overall Maintenance of the building, grounds and operation of its equipment and Mechanical/electrical systems - as Maintenance Worker you'll keep everything looking sharp and running like clockwork.

## Your day to day

- Basic repair work, including painting, wallcovering, plumbing, electrical work, pool operations and preventative Maintenance
- Repair or replace items around the hotel and refurbish items in guest rooms. By keeping on top of these tasks, you'll keep our hotels looking great and working well
- Always keep an eye out for improvements – follow the preventative maintenance calendar and keep everything working and efficient at all times
- Work with a goal of total guest satisfaction every time
- Assists the Chief Engineer on routine Preventative Maintenance on all capital equipment
- Organize supplies and make sure equipment is ready for the next day
- Live up to high safety standards – follow guidelines and tell your supervisor about any incidents, dangerous conditions or unsafe equipment
- Take responsibility for the safety and cleanliness of areas inside and outside the hotel, like the car park and pool
- Be a friendly face and helping hand to our guests
