

## Industrial Engineer

Are you looking to grow your professional career in a rural community? Do you want to work for an innovative company that will invest in your potential? Welcome to HyLife; Canada's leading pork producer. HyLife creates limitless opportunities for passionate professionals in a global business setting. Our growing company is searching for top talent to join our team in the role of **Industrial Engineer**, reporting to the **Manufacturing Engineer Manager**. This opportunity is located in the community of **Neepawa MB**.

Your days will include:

- Designing, modeling, building, and deploying functional solutions
- Leading process improvements activities
- Evolving continuous improvement initiatives
- Supporting the business through effective management of value, risk, content, communication, knowledge, and resources
- Responding to immediate safety, quality, and productivity issues that arise
- Adhering to budget requirements
- Complying to all codes and regulations, including the health and safety policy and practices in the delivery of services
- Analyzing work force utilization, facility layout, and operation data such as product cost, process flows, and production schedules to determine efficient utilization of all assets
- Participating in the training and development of other employees
- Assisting with the development and integration of corporate cultural elements
- Leading and participating in process development projects
- Contributing to other technical support duties

To succeed in this role, you possess:

- Bachelor of Engineering degree in Manufacturing, Industrial or Mechanical Engineering
- Diploma of Engineering Technology in Manufacturing or Mechanical Engineering Technology
- 2 years of relevant experience
- Experience in leading Lean initiatives

If you thrive on new experiences and want to be a part of a team with international reach, apply today at <http://hylife.com/current-opportunities/>

**Your future starts now!**
