About McCain:

McCain Foods is proud to be a family and values-driven company. Our values are integral to our culture, helping to shape how we operate, how we work together and the choices we make. They are a big part of what makes us unique. McCain Foods opened their first production facility in their hometown of Florenceville, New Brunswick, Canada. McCain Foods quickly established itself within the Canadian marketplace and then began a journey to become the world's largest manufacturer of frozen French fries and potato specialties.

McCain products can be found in thousands of restaurants and supermarket freezers around the world. In addition to fries, McCain also produces other foods, including appetizers, oven meals, vegetables and juice for both the retail and foodservice industries.

Why You Should Join Our Team:

McCain offers full benefits including health, vision, and dental insurance. In addition, we offer other benefits including:

- BlueCross Benefits starting after 600 hours complete, paid by McCain
- Pension Match 3%
- Education Reimbursement Assistance

Sustainability and Planet Friendly Practices are at the heart of McCain:

We've embarked upon a journey to create planet-friendly food. We are committed to investing in resource-efficient operations in factories and farms.

- We are moving to 100% renewable energy by 2030.
- Donating 200 million meals to food banks and NGO worldwide by 2025.
- Implementing regenerative agricultural practices across 100% of our potato acreage by 2030.

Position Summary:

The Licensed Millwright Mechanic is responsible for the care, maintenance and continued operability of the facility and all associated equipment in accordance with quality specifications, federal guidelines and company policies. Perform routine and preventive maintenance on all equipment and facilities at McCain Carberry plant.

Key Responsibilities:

- Read and understand blueprints, diagrams, and engineering and schematic drawings to determine work procedures and/or install, troubleshoot and maintain mechanical systems
- Use various hand and power tools along with welding equipment
- Troubleshooting, inspecting and examining machinery and equipment to detect and investigate irregularities and malfunctions
- Identify and improve safety, and reliability in a manufacturing environment
- Train and lead all employees in the areas of safety, environmental, GMP's, and sanitation procedures
- Ensure timely, accurate records are maintained
- Follow good manufacturing practices
- Demonstrate lean manufacturing techniques including 5S, standard work, S.O.P, B.O.P, JHA's

Qualifications:

- Must hold a valid Inter-Provincial Journeyman Industrial Mechanic Millwright license (Red Seal)
- 3 years previous experience in a manufacturing environment; food processing would be considered an asset
- Candidate must have strong mechanical aptitude and electrical abilities
- Must be a team player, willing to participate with excellent communication skills
- Proven ability to work independently, prioritize tasks with a keen sense of urgency
- Ability to read and follow blueprints and electrical schematics

Previous experiences that might be an asset in this role include the following titles: Industrial Mechanic, Manufacturing Mechanic, Maintenance Technician

Equal Employment Opportunity

It is the policy of McCain and each of its establishments to select and employ the best qualified personnel in all facilities and at all locations, to provide equal opportunity for the advancement of employees, including upgrading, promotion and training and to administer these activities in a manner which will not discriminate against any person because of race, color, religion, sex, sexual orientation, age, national origin, non-job related disability or other characteristics protected by applicable federal, state, or local laws.
