Job Description

Looking for a few different drivers: class 5 with air or class 3, plus a few guys with just a normal class 5 license.

Job is for towing vehicles and hauling machinery with a 5-ton truck. Most of the work is in Winnipeg, sometimes outside the city as well. If your driveway is long enough, you can take the truck home, so you won't even need your vehicle to go to work!

Must-haves:

- criminal record check
- drivers abstract
- safety boots and hi-vis clothing

The job is paid by the load, so there's plenty of guaranteed work since winter is on its way. Must have a few years driving experience, preferably around cars or construction equipment. Wcp covered!

Please contact me by phone, email or on here. Thanks.
