Press Operator

Job Description

Evolution Wheel is seeking to hire a team member for a CNC operator position. The successful candidate will work directly with our production manager and will be responsible for operating vertical rubber injection molding presses and other manufacturing equipment including a CNC Vertical Mill, plasma cutting table and Plate Roller.

The responsibilities of this position include:

- Operating a Vertical Rubber Injection Molding Press
- Operating a CNC Vertical Mill
- Operating a Plasma Cutting Table
- Operating a Plate Roller
- Operating an Overhead Crane
- Assemble Tires
- Clean and Maintain Equipment
- Ensure the production of quality parts
- Meet production targets set by management
- Managing and maintaining raw material levels for production based on daily scheduling

The successful candidate should possess the following skills:

- Forklift Operator Certificate
- Ability to lift 50-70lbs
- Press or CNC Operating experience
- Ability to work alone and with a team
- Detail oriented and committed to making a quality product above all else

Evolution Wheel is the leader in heavy equipment traction technology. We offer a premium tire solution for the construction, mining and agriculture markets. Interested candidates can learn more about the company by visiting www.evolutionwheel.com
