JOB DESCRIPTION	<p>Company will disrupt the industry's perception of plant-based protein with high quality functional ingredients that are unmatched in purity, superior in solubility and exceptional in taste. As demand for a healthier, plant-based food system continues to grow, we are responding with proprietary pea and non-GMO canola protein ingredients that exceed the industry's standards and more. Employer is currently building a state-of-the-art production facility in Winnipeg, where we will produce our portfolio of pea and canola protein ingredients. When complete, it will be the only commercial-scale facility capable of producing food-grade canola protein in the world.</p> <p>As a member of our company, you have a sense of accountability and have an entrepreneurial mindset. You are curious, collaborative and are committed to success for all teams not just your own- you enjoy rolling up your sleeves to get work done. At work, we cultivate a working environment that inspires new ideas, promotes ownership, innovation and supports highly motivated individuals to take our business to the next level.</p> <p>The Opportunity</p> <p>Are you an individual that enjoys being hands on and at your best in a fast-paced environment? We are looking for a motivated, self-starter Production Operator who wants to learn to join our team. This role is responsible for the operation of our production line and ensuring that our products meet our food quality standards and product specification. We will provide you with all of the training you need!</p>
