

Background

Refuah Solutions Ltd. is a start-up company established by a former Professor of Medicine at the University of Manitoba and a previous gold-medal recipient for Computer Sciences at the University of Winnipeg. Refuah's mission is to develop IT solutions to the challenges encountered by physicians and industry when conducting clinical research on behalf of patients. Its lead product is PI-Enroll®, an App that is presently being used in over 30 clinical trials throughout the world. Refuah now wishes to extend the functionality of *PI-Enroll* and develop additional new platforms that meet the needs of investigators, research nurses and community-based physicians who are also involved in clinical research.

Job Description

Refuah. is looking for a full-time full-stack mobile apps developer (frontend & backend).

40 hours/wk (flexible hours)

Salary commensurate with experience and equity in the company is also available.
