

### **Structural Design Technologist**

---

#### ***Position Overview***

Wolfrom Engineering is seeking a total of four (4) to six (6) structural design technologists. The position will involve producing structural drawings for a range of projects types, such as; residential, commercial, institutional, and industrial. The incumbent will work directly with professional engineers to develop designs and construction drawings. With additional training and qualifications, there is opportunity to expand the role with design, project management and/or conducting construction reviews of projects.

#### ***Qualifications***

The ideal candidate will have a minimum of 3 years' experience producing technical drawings for a consulting firm, with the firm and applicant producing and communicating in English. Post-secondary education in a recognized technical program or bachelor's degree is a requirement. The position requires AutoCAD/Revit drafting skills. Project management experience, knowledge of construction assemblies, and knowledge of the National building code of Canada is considered an asset. This is a full-time position based on 37.5 hours per week and salary would be \$29.00/hour - \$39.00/hour depending on experience.

We offer competitive salaries with a bonus structure, robust benefits package and health benefits including medical, dental and disability insurance.

#### ***Company Culture***

To succeed at Wolfrom Engineering requires strong communication and self-management skills. We promote an open structure to remain flexible and provide a broad range of experiences. Each project is led by an engineer or senior technologist who will assemble a project team best suited for the needs of the project. This allows for a wide variety of project experience with different people to exchange ideas and meet new challenges.

*Please send resumes to [wolfromeng@gmail.com](mailto:wolfromeng@gmail.com) for consideration. While we thank all applicants for their interest, only those selected for an interview will be contacted.*
