

# Welder/ Fabricator Position

Location: La Salle, Manitoba

We are looking for a Welder/Fabricator who enjoys tinkering around, excels at meeting production outputs, and adaptable to changes in project demands. The successful person will be creating and implementing never before made propane industry specific machinery and equipment.

## Day in the Life:

- Actively assembling tank processing equipment for our production facilities
- Reading blueprints and technical drawings, making adjustments
- Welding and fabricating aluminum metal to bring the designs from paper to “life”
- Ability to use MIG and TIG welding forms to creatively modify and strengthen existing and new components
- Hands on ability to tinker around with the development and creation of prototypes

## What we offer:

- The opportunity to make a difference: Our company culture thrives on idea sharing, improvements, and collaboration
- A commitment to your success and development: Ongoing career conversations and growth opportunities as we see this position as a stepping stone into our organization
- Open door policy across the organization: An environment of trust and mutual respect
- A competitive starting salary - with opportunities for increases
- Comprehensive company benefits & group RRSP plan
