At Qualico, our people make the difference. We offer an exciting place to build your career with competitive compensation and benefit packages, company matching RRSP/DPSP program, employee home purchase program and retail discounts.

Job Overview

Reporting to the Web Services Specialist, as the **Web Developer** you will develop, maintain and troubleshoot web-based projects across multiple business units. You also handle both front-end and back-end web development projects.

Your day-to-day responsibilities will include:

- Providing maintenance and upgrades to existing company websites, primarily in the WordPress CMS environment for both front and back-end development.
- Planning, prototyping and developing new websites and applications. Testing new features thoroughly to ensure alignment with functional requirements.
- Conducting tests, performing security and quality control to identify bottlenecks and bugs, and devising solutions to address issues.
- Designing, building and maintaining efficient, reusable, and reliable code.
- Creating and optimizing content for websites using a variety of graphics, database and other software.
- Leveraging APIs to integrate data from CRM, ERP, and other sources.
- Gathering requirements from business units and proposing effective solutions. Researching and evaluating new technologies for functionality.
- Estimating and managing timelines for multiple concurrent projects to monitor changes from development to production phases.

As our ideal candidate, you are...

- Organized; you effectively manage your time while balancing multiple priorities.
- A strong communicator; you clearly express your thoughts in conversation and in written communication.
- An active listener; you seek to understand and listen to others in a non-judgmental way.
- Detailed oriented; you focus on detailed accuracy when dealing with a high volume of work.
- A team player; you contribute as a team member and share equally in the exchange of ideas, concepts and process outcomes.

Essential Requirements

- Degree/Diploma in Computer Science, or equivalent.
- Minimum 3 years of web development experience.
- Expertise with web applications and tools and languages such as Visual Studio, .Net, PHP, SQL, HTML5, CSS, JavaScript, jQuery and API's.
- Proof of COVID-19 vaccination.
- Satisfactory verification of criminal record check.
- Advanced knowledge of IT applications, processes, software and equipment.

What We Value

- Creating trusting and successful working relationships.
- Setting clear, measurable and achievable goals.
- Cooperating with team members in an open, positive and respectful manner.
- Taking responsibility for the outcomes of decisions and actions.
- Staying current with technical job skills.

Working Conditions

You primarily work in an office setting during regular business hours. Overtime may occasionally be required.

Qualico is committed to the health, safety and wellness of its employees and the community. By continuing our commitment to maintaining a safe and healthy workplace, Qualico has implemented a COVID-19 Vaccination Policy that requires all employees in Canada to be fully vaccinated. Proof of vaccination, in the form of a provincially recognized document, must be submitted as a condition of employment. Our policy allows for accommodation in cases of valid medical or religious exemptions. Information related to proof of vaccination or exemption will be kept confidential.

Candidates being considered will be contacted. We thank you for your interest. Join our [Talent Community](#) to stay up to date on job opportunities and to find out why we have the best reason to come to work every day.

Closing Date: January 24, 2022
