

MONARCH INDUSTRIES

Position: Welders

Reports to: Production Supervisor

Company:

Monarch Industries is a privately-owned company that was founded in 1935. Monarch is a vertically integrated manufacturer of hydraulic cylinders and custom iron castings. These products are marketed throughout North America into the retail, agricultural, industrial and original equipment manufacturer markets. Employing over 600 people, Monarch's corporate office is located in Winnipeg, Manitoba with a foundry in Winkler, Manitoba and a distribution center in Kansas City, Missouri, USA. Monarch has positioned itself to service all the needs of their customers' diverse requirements.

Essential Responsibilities and Duties:

- Weld hydraulic cylinder tube, rods, and components using manual and automated welding processes
- Achieve and maintain required productivity levels (efficiency & utilization)
- Produce required quality and quantity of work
- Contribute daily to continuous improvement
- Adhere to all Safety and Health standards

Education Required:

- Welding certificate from a recognized post-secondary or trade school
- CWB Certification, or ability to become certified

Experience Required:

- Minimum of 1-year experience on MIG (Gas Metal Arc, Flux Core Arc, Shielded Metal Arc)
- Additional welding experience considered an asset
- Hydraulic component welding background preferred

Skills and Attributes Required:

- Demonstrated analytical, problem-solving, and decision-making skills
- Excellent verbal and written communication skills
- Proven ability to meet deadlines in a dynamic and challenging environment by effectively organizing, prioritizing, and executing tasks
- Ability to work independently without direct supervision

Monarch Industries is an equal opportunity employer.
