

Western Millwork is looking for Cabinet Maker/Assembler to join our growing company.

Preference will be given to candidates with 4+ years experience and who can demonstrate knowledge of woodworking industry practices and materials.

We are a Medium Sized Architectural Woodworking Shop that specializes in Custom Commercial and Residential Projects. We have a very supportive and professional team for new people.

Candidate should possess the following:

- Previous knowledge of operating Hand Tools, Power Tools, Table Saw, Panel Saw, and General Woodworking Machines.
- Ability to cut, shape and form parts and components to fit parts and subassemblies together to form complete units.
- Understanding of various materials used, such as Melamine's, Veneers, Plastic Laminate, and Solid Woods.
- Experience in Custom Fabrications
- Ability to layout and Install Custom Hardware and Components
- Ability to read and interpret Shop Drawings
- Communication and Problem Solving Skills
- Correctly read and apply labeling
- Understanding of Metric & Imperial measurements
- General Maintenance to equipment & work area
- Understand and abide by safety protocols and procedures.
