

## Registered Energy Advisor

Hungry? Sharp? Positive attitude?

As a Home Energy Advisor, your position will be to conduct comprehensive and precise energy assessments for a house, in accordance with NRCan and utility company standards. This will be done by assessing the energy efficiency of the home and provide the homeowner with a walkthrough of the residence to show them where/how to save money.

This position requires proficiency with computers and technology, numeracy, report writing, with high attention to detail, and strong problem solving abilities, as well as an ability to communicate effectively with others.

As an energy advisor you'll be expected to work independently, with daily travel, to a variety of locations within the region, to perform a full range of evaluation activities including preparing time-sensitive reports.

You must also be computer literate, physically fit, have post secondary education and have good communication skills in English.

### Qualifications/ Skills:

- Registered NRcan Energy Advisor
- 1-3 years experience in a customer facing role
- Analytical, problem solving and decision making skills
- Computer literate
- Math skills are essential
- Proven results on delivery of performance objectives and quality targets
- Exceptional communication and interpersonal skills
- Self management
- Time management
- Ability to listen
- Eager and willing to add to knowledge base and skills
- Flexible working hours, some evenings and weekends are required.
- Post secondary education is required
- Successfully pass NRCan Foundations and Energy Advisor Exams
- Police check
- Valid G drivers licence

### What Energy requires from an Eligible Candidate :

- Provide a police check before beginning training.
- Provide a copy of driver's license before beginning training.
- Sign a non-compete and a no-solicitation contract which will be for one full year after leaving Energy, and will be in force throughout Ontario.
- Your dedication and hard work!

### Driver License:

- Valid G license
- Clean drivers Abstract

**Education:**

- Post secondary school
- Building science is an asset
- Home inspection experience is an asset
- Construction/Building envelope courses an asset
