

Carpenter - NOC: 72310

Description

Job Description:

We are looking for a skilled Carpenter to join our team. The ideal candidate will have a strong background in carpentry, with experience in reading blueprints, preparing layouts, and constructing various wooden structures. This role requires an individual who is detail-oriented, capable of managing multiple tasks, and committed to high-quality workmanship.

Duties

- Estimate Preparation: Prepare accurate estimates of labor and material costs for carpentry projects.
- Blueprint Interpretation: Read and interpret blueprints, drawings, and sketches to determine specific work requirements.
- Layout Preparation: Prepare layouts in conformance with building codes, using precision measuring tools.
- Material Handling: Measure, cut, shape, assemble, and join materials such as wood, lightweight steel, and other substitutes.
- Tender Preparation: Prepare tenders and quotations for potential projects.
- Construction Tasks: Build foundations, install floor beams, lay subflooring, and erect walls and roof systems.
- Installation: Fit and install windows, doors, stairs, moldings, and hardware as per project specifications.
