

Precision welder - NOC: 72106

Description

We are seeking a highly skilled Precision Welder to join our team. The ideal candidate will have experience in welding, brazing, and metal fabrication. This role requires an individual who can interpret complex specifications and blueprints, ensuring that all welds meet the highest standards. If you are detail-oriented, dedicated, and looking to work in a dynamic environment, we encourage you to apply.

Duties

- Interpret Welding Specifications: Understand and execute welding process specifications with precision.
- Blueprint Reading: Accurately read and interpret welding blueprints, drawings, specifications, and manuals.
- Weld Inspection: Examine welds to ensure they meet industry standards and specifications.
- Equipment Operation: Operate manual and semi-automatic flame-cutting equipment, as well as brakes, shears, and other metal shaping machines.
- Metalwork: Fit, braze, and torch-straighten metal, and operate oxygen arc cutting equipment.
- Weldability Assessment: Determine the weldability of various materials.
- Lifting & Hoisting: Safely operate hoisting and lifting equipment.

- **Welding Machine Operation:** Operate pre-set welding machines to fabricate or repair metal parts and utilize brazing or soldering machines as needed.
- **Equipment Maintenance:** Perform minor repairs and maintain welding, brazing, and soldering equipment to ensure optimal performance.

Qualification

- Experience as a Precision Welder is not required but considered as an Asset.
- Skilled in operating welding equipment and metal shaping machines.
- Ability to examine and ensure the quality of welds.
- Familiarity with safety protocols and welding standards.
- Strong problem-solving skills and attention to detail.
- Ability to work independently and as part of a team.
- Physical stamina and the ability to work in varying conditions.
