

Metal Fabricator (NOC: 72104)

Description

McTavish Steelworks, operating in Manitoba since 1992, specializes in steel products, offering high-quality workbenches and storage solutions. Our in-house team handles design and manufacturing, ensuring strict quality control.

Job Description:

We are hiring a skilled Metal Fabricator to join our team. The successful candidate will be responsible for crafting metal components and structures according to precise drawings and blueprints. This position requires a detail-oriented professional with metalworking expertise.

Responsibilities:

- Analyze engineering drawings to understand project requirements and specifications.
- Select the correct materials based on the project needs.
- Construct and lay out reference points, patterns, and templates for accurate cutting and assembly.
- Plan the task sequence to ensure effective and efficient metal cutting and shaping.
- Set up and use heavy-duty machinery such as shears, presses, CNC equipment, and grinders for tasks like cutting, bending, and forming metal.
- Assemble metal plates and sections using welding, bolting, riveting, or other methods to form structures or components.
